Philmont Scout Ranch High Adventure Base

STEM in Scouting: Education and Adventure

STEM-Tastic Scouting: Growing Scouting through STEM in your Council

ADULT PARTICIPANTS ARE WELCOME TO BRING PORTABLE PC OR TABLE FOR USE IN CLASS

And if you have family members who are just looking for a relaxing vacation, the world-renowned Philmont Training Center has amazing activities for kids (and spouses!) from age 2 up! They will explore the 140,000+ acres that is Philmont Scout Ranch, but be back in time to share dinner and evening programs with the rest of the family. Truly a once in a lifetime opportunity!

Join us as we explore STEM in Scouting! This week-long, highly interactive STEM (Science, Technology, Engineering, and Math) conference will help you integrate STEM Nova awards and activities into your programming at the council, district, and unit level. Emphasis will be on implementation and expansion of STEM programs at the council level. Topics to be discussed include: Organizing Council STEM committee, Funding your STEM programs, STEM Centers, STEM Outreach, District and Council STEM events, Training STEM trainers, STEM at High Adventure bases, Overcoming Roadblocks, and Supporting District and Unit STEM programs. All participants will complete both Nova Counselor and Supernova Mentor training, and come away with an in-depth understanding of STEM in Scouting, including the STEM Nova award program.
