## SETTING THE COURSE

You and your crew are about to embark on a great outdoor Scouting experience. Your Philmont trek will leave you with lasting memories and lifetime values; It will change your life forever! This Philmont Treks 2024 Itinerary Guidebook, and additional resources listed below, will help you and your crew select an itinerary and continue your trek preparation.

The *Guidebook to Adventure--Advisor's Edition* is designed to assist council contingents and units in planning a successful Philmont adventure. Both experienced and new Advisors will find answers to many of their questions regarding their upcoming trek.

The *Guidebook to Adventure* is a guide to preparing for Philmont treks by walking readers through the proper gear, what to expect from start to end of a Philmont trek, and program opportunities.

This *Philmont Treks 2024 Itinerary Guidebook* helps you and your crew select an itinerary that matches everyone's physical ability and program desires and helps build your crew into a team where everyone is successful.

## 2024 ITINERARY SELECTION

Philmont has many wonderful program opportunities, but arguably, the most important program is "The Hike." "The Hike" could be defined as hiking up a valley or over a mountain, facing and overcoming challenges as a crew, working together to succeed, being caught in a thunderstorm, laughing and telling stories during dinner at a trail camp, enjoying moments of complete solitude, deeply thinking about how you might make a difference in the world (or in your crew), and fully seizing each moment you have in these New Mexico mountains. "The Hike" can be defined in many different ways, many that your crew will discover and redefine during your trek. Philmont encourages you to think about the program opportunities that your crew would like to participate in while you are here, but also encourages you to always place a high emphasis on the importance of "The Hike."

Philmont's backcountry remains pristine largely because of the preplanned itinerary system. With thirty-four 12-Day itineraries, twelve 9-Day itineraries, and sixteen 7-Day itineraries to choose from, a crew can take advantage of many unique program features and select a hike that meets the physical ability of each crew member. Following a preplanned itinerary helps Philmont know the locations of each crew for contact should an emergency arise. This plan is also a vital part of Philmont's overall conservation and wilderness ethic.

Each itinerary is reviewed annually, and changes are made as needed. When selecting your 2024 itinerary, **DO NOT USE A PREVIOUS BOOK** or rely on any itinerary you might see on the internet other than Philmont's official website [www.PhiImontScoutRanch.org](http://www.PhiImontScoutRanch.org). **THESE ARE THE ONLY OFFICIAL PHILMONT ITINERARIES FOR 2024.**

**NOTE:** Itineraries may change due to adaptations made during the season to adjust capacities, program schedule, logistics, etc. Please check your final crew leader copy upon arrival, as it will be the correct and most up-to-date plan for your trek.

Crews will review their respective available itineraries and select all that they would like to take. 12-Day, 9-Day, and 7-Day crews will need to select their **top six (6)** itinerary choices. Note: If 12-Day crews will have a sister crew, then they will need to select their **top eight (8)** itinerary choices. Cavalcade crews will need to select their **top five (5)** itinerary choices.

**Sister Crews are NOT permitted for 7-Day or 9-Day treks.**

Starting at 9am on January 16, 2024, you can enter your itinerary preferences. If you need to, you can change your itinerary choices until 9am on February 16<sup>th</sup>. At that time, itinerary selection will close so Philmont can run an automated fair process to assign itineraries. Every effort will be made to assign the crew one of their **top choices**. You will be notified by email after your itinerary has been assigned.

Crews that do not enter itinerary choices prior to 9am on February 16, 2024 can do so after the automated fair process is completed – the system will try to assign you an available itinerary based on your choices. If none of your choices are available, you will be asked to enter more choices.

## THE CHALLENGE

Most crews choose either a “challenging” or “rugged” itinerary. Hiking with a heavy pack in elevations from 6,000 to nearly 12,500 feet is a major physical challenge. It is not possible to “acclimatize” by spending a few days at elevations one is not accustomed to. Altitude sickness can usually be avoided by not sleeping above 9,000 feet for the first few days on the trail. Philmont considers this and many other factors when planning the itineraries.

Youth participants are usually fully capable of mastering the challenge. **Many adults who lead sedentary lifestyles have great difficulty and could potentially be placing themselves in harm’s way. Refer to the *Guidebook to Adventure--Advisor’s Edition*.**

## ITINERARY RATING

The rating or degree of difficulty of each itinerary is determined by many factors such as mileage, elevation changes, number of layover days, days to carry food, distances to water sources, and topography to name a few. A little practice using the Philmont Overall map will show many areas where there are steep climbs and descents. When contour lines are closer together, the terrain is steeper. The contour interval on the overall map is 100’. Philmont’s North and South Sectional Maps have 50-foot green contour lines.

A “**Challenging**” itinerary will allow the crew more time for program. It also allows time to do some interesting side hikes, visit backcountry trading posts, take showers, and enjoy the solitude of the backcountry trail camps.

A “**Rugged**” itinerary, although offering more physical challenge, is very enjoyable for a crew that has trained. It also offers a variety of exciting program.

A “**Strenuous**” itinerary is just as it sounds. A great experience for a crew of physically fit Scouts, Venturers, and capable adults. More time is devoted to hiking; however, a well-prepared crew can still experience several programs. Many seasoned crews who have hiked together several years choose a strenuous itinerary.

A “**Super Strenuous**” is, by far, the most difficult and, for early rising Philmont crews, very rewarding! These few itineraries are highlighted by climbing some of Philmont’s highest peaks and hiking long days of many miles. These itineraries should be attempted by older, more experienced crews where every person is in excellent physical condition.

## ITINERARY MAPS, DISTANCES & ELEVATION

The description of each itinerary shows a total distance in miles as well as the daily mileage and elevation gain and loss for each day of the trek. These distances are calculated from the GIS map shown for the itinerary. Be aware that these distances are measured from camp to camp and **do not** include some side hikes (except for Baldy Mt. and the Tooth of Time), going to or from conservation sites, or hiking to program areas. Because of this, most crews can expect to actually cover **25% to 30% more mileage** than what is shown. Providing the mileages in this document gives you a consistent, comparable distance between locations in the itineraries.

Itinerary maps are provided for illustrative purposes only and may not show all possible routes, side hikes, etc. An overall map will be mailed to your crew in the Spring, or you may purchase sectional maps from the Tooth of Time traders to assist your crew with planning.

The elevation profiles show the relationship of elevation gained and distanced hiked to help give a better sense of the overall hiking challenge for each day.

## ITINERARY ASSIGNMENT

For 12-Day treks, Philmont assigns only two crews each day to the same itinerary. For 7-Day and 9-Day treks, Philmont assigns only one crew to each itinerary.

**Each crew must hike independently.** The maximum crew size is 12 people, and the absolute minimum crew size is 8 people, including adult Advisors. **These standards are strictly enforced. Each crew is required to have a majority of youth participants, and the maximum number of adults (21 and over) is four (4) per crew.**

## CREW RENDEZVOUS

Often crews from the same troop or contingent would like to spend time in the same camp. This rendezvous can be planned by choosing itineraries that would be in the same camp on the same day. Please refer to the **Itineraries At A Glance** chart and the **Itinerary Rendezvous Locations** table.

## SELECTING YOUR ITINERARY

The three tools your crew needs to make their top itinerary choices are:

1. Philmont overall map—after your crew receives itinerary confirmation, you should purchase the North or South Country sectional map(s) suggested at the bottom of the itinerary description pages, for more accurate navigation. These can be found at [www.ToothofTimeTraders.com](http://www.ToothofTimeTraders.com).
2. The *Guidebook to Adventure* which gives a brief description of the available programs.
3. The *Philmont Treks 2024 Itinerary Guidebook*

## TIPS FOR SELECTING AN ITINERARY

First of all, the itinerary must be the **youths'** decision! The crew's choices must meet each crew member's physical ability and should be choices the crew is willing to hike, if assigned. The itinerary should be a balance of exciting program features (many of which are repeated at several locations) and quality hiking. Every itinerary offers a full Philmont experience.

Many crews determine their own unique method of choosing their top itinerary choices. Some tried and true methods are:

1. Based on your conditioning program, determine the level of difficulty that best suits the crew.
2. Have each crew member select their six (6) favorite program features from the list in the *Guidebook to Adventure*.
3. Tally votes for each program and use the charts **Programs/Itineraries/Camps** and **Programs Included in Itineraries** that can be found right before the detailed itinerary descriptions. These charts will help you and your crew find itineraries that have most of the programs desired by the crew.

The description page for each itinerary, located opposite the sketch map and elevation graph, lists the camps where the crew will spend the night, program features they may participate in each day, commissaries where the crew will pick up food, and potential conservation sites. **When a crew is assigned an itinerary, it is required to spend the night in the specified camps and pick up food at the commissaries shown.**

## CAMP PROGRAMS & PASSTHROUGHS

The program features listed are, in most cases, programs that an average, motivated crew may participate in. **They do not in any way guarantee that a crew will be able to do all the programs shown.** This can vary depending on how fast a crew hikes, morning start time, weather, crew dynamics, and other conditions. Also, be aware that program may be limited or curtailed due to staff responses to emergencies, first aid, search and rescues, equipment issues, etc. This may mean that some or all program elements are not available as the staff respond to these priority needs. Please be patient with our staff as they work through these scenarios and be a positive example for your crew.

Crews **may** also be able to participate in programs that are in camps en-route to their daily destination—“pass through” programs. In these instances, while special, abbreviated programs may be available, crews should not expect to participate in the full program offering available to crews that selected their itinerary to include a camp/program. The Crew Leader should check with the backcountry camp staff when arriving at a “pass through” camp to see what may be available.

## ITINERARY PROGRAMS

A few programs such as the Chuck Wagon Dinner, horse rides and the use of burros for equipment packing require scheduling when the Crew Leader and Crew Advisor meet with their Trip Planner in Logistics.

There may be a few itineraries where programs are listed with an “**OR**” condition. For example, “Side hike Tooth of Time **OR** Chuck Wagon Dinner & Horse Rides.” Crews must select the program(s) they wish to take part in during Trip Planning in Logistics (either the Tooth of Time side hike **OR** the Chuck Wagon Dinner & Horse Rides in this example). It is not possible or practical to do all the programs listed and selection of one choice will permit the proper meals to be scheduled and picked up.

Before making a final itinerary selection, crews should check the Philmont website under the 2024 Itineraries link for any updates that may have occurred. Various tables and charts in this book are published to the website as well with a date stamp indicating when they were last updated.

## BURRO PACKING

If your crew chooses an itinerary that includes burro packing and is assigned that itinerary, you **MUST TAKE THE BURRO**. Not only is burro packing a real part of Philmont’s history and lore, but it’s also a great way to lighten everyone’s load! Each crew on a burro packing itinerary will be issued one or two burros and will be provided training on how to pack and care for the burros. Be sure to pick a name for your burro(s) and take many photos with it and your crew! **If your crew chooses a burro packing itinerary and one or more members of your crew have allergies that prevent them from being around burros, your crew will have to choose another itinerary!**

## HORSE RIDES

Philmont owns and maintains a remuda of several hundred western horses, with strings located at Beaubien, Clarks Fork, and Ponil. All three camps offer horse rides along mountain trails to crews on certain itineraries. Reservations are made at Logistics on a first come first served basis during your processing in base camp on Day 1. While you are at the camp preparing for your ride, please cooperate with Wranglers by following all safety instructions, including rules for riding, attire, helmets, etc. Long pants and closed toe shoes are required for protection. Persons weighing over 200 pounds will not be permitted to ride. **Please be aware that horse rides are not available on July 4th as Philmont Scout Ranch has a decades-long involvement with the local 4th of July Rodeo.**

## ITINERARY EXPLORER

A new tool is now available to crews that will assist in the process of narrowing down and selecting itineraries. It is called the “Itinerary Explorer” and is accessed from the crew’s dashboard page in the Philmont Gateway. (The button will go live on December 15<sup>th</sup> when Itineraries are published.) This tool will allow a crew to filter the features that are definitely wanted, or not wanted in an itinerary. Filters are available for Difficulty, Peaks, Activities, Camps, and Base Camp Hike options. As choices are made in each filter, the itineraries that meet the crew choices will be noted at the bottom of the page for further review. It is a very easy to use and highly effective way of finding the itinerary that is best for your crew! Further instructions are available on the Itinerary Explorer page, with a sample to show how the Explorer tool works.

## RESERVING YOUR ITINERARY

Philmont utilizes the Philmont Camping Gateway for you to enter your itinerary choices. Reservation Contacts and/or Lead Advisors will need to log-in and complete the appropriate steps by following the instructions in sections below to be able to select their top itinerary choices. Remember, crews have from January 16, 2024 at 9am MST until February 16, 2024 at 9am MST to enter their top itinerary choices. You will be notified by email after your itinerary has been assigned.

## KEYTERMS IN RESERVING YOUR ITINERARY

**Crew Roster** – Every crew hiking in the Philmont backcountry must submit important participant information online prior to arriving at the Ranch. Philmont logistics and medical staff utilize the information found in each roster to understand the location for safety of backcountry participants should an emergency arise.

**Reservation Contact** – This person created the initial Philmont reservation and has been the primary contact for payments and planning. Sometimes the reservation contact also plays the role of a Lead Advisor. Once inside the Gateway, Reservation Contacts have the option to view and modify information for every crew roster in their reservation.

**Lead Advisor** - Each Philmont crew has one designated Lead Advisor. This adult organizes their crew and enters information for each crew member into the Philmont Camping Gateway prior to arriving at Philmont. In addition to participant information, the Lead Advisor also submits their planned Philmont arrival and departure travel information online.

**Sister Crew** – Crews on a 12-Day trek will have the option to request to hike with another crew on a 12-Day trek with a matching arrival day. Lead Advisors for a 12-Day trek may select a Sister Crew as soon as they access their crew roster through the link received via email. Once a Sister Crew arrangement has been confirmed by both crews, either crew's Lead Advisor may submit itinerary preferences for both crews when Itinerary Selection opens at 9am on January 16, 2024.

## CONSERVATION SITES & PROJECTS

In 1938, Waite Phillips donated the first tract of what would become Philmont Scout Ranch to the Boy Scouts of America. Prior to that gift and even Phillips' ownership, that same land had been inhabited for thousands of years by Ute, Comanche, Pueblo, and Jicarilla Apache peoples. As American colonization began in the 1800s, and as mining, logging, and ranching industrialized the landscape, the high desert environment began to experience use of an unprecedented intensity. Over the past 80+ years, Phillips' original gift and subsequent multi-thousand-acre acquisitions have come to host over one million scouts camping, hiking, and horse-back riding.

Intense land use of the last 200 years has not occurred without an impact to the local ecosystem and landscape. Phillips envisioned that scouts have the opportunity to give back to the Ranch by working to preserve its integrity as a natural and recreational resource. Since its beginning, scouts visiting Philmont have been able to preserve, repair, and enhance the natural integrity of the Ranch for future generations by participating in projects ranging from trail construction and maintenance, stream restoration, and fire rehabilitation to forest fuels reduction, erosion control, and invasive species removal. Your crew will have the same opportunity this coming summer. As a requirement of the Arrowhead Award, your trek itinerary will feature an assigned 3-hour conservation project critical to the continued operation of Philmont Scout Ranch. This project will be facilitated by trained Conservation Department staff at one of several conservation sites across the ranch.

Crew loads will be assessed for each Conservation site after itinerary selection has completed. **Attendance (high or low) will be assessed for each site, and due to site specific needs, priorities, land use agreements, etc., all project locations, times, and work are subject to change. Project assignments will be updated after itinerary selection. These modifications will be communicated by April 1. Any subsequent modifications will be further communicated in as timely a manner as possible.** Please know that these necessary changes are not made lightly, and that every effort will be made to provide for the least interruption to the rest of your crew's trek. Your work is vital to the continuation of sustainable land use at Philmont, and on behalf of the Ranch, the BSA, and every scout who has ever or will ever come to Philmont, the Conservation Department extends its deepest appreciation for your time and efforts.

### Beaubien – Forestry Fuels Reduction

If you've previously visited Philmont's south country, you will have noticed that the forests are very dense and crowded with trees. Absent regular wildfire, these stands grow in this unhealthy and unnatural and increase the severity of future fires. This project will focus on removing trees that have encroached into the meadow over the last 100 years and will help create a more fire-resilient forest as part of a healthier Philmont. Crews will help to build slash piles, burnable in winter, from trees cut by staff to begin to return the forest to a more natural state. The worksite is generally within a half mile of camp.

### Sawmill – Trail Construction

Working directly out of Sawmill, crews will construct a new hiking trail on the north side of Cito Peak. Starting off, this trail follows a 75-year-old logging road to the edge of the canyon. From there the trail crosses steep terrain and some of the only old growth forest left at Philmont. Untouched by loggers, homesteaders, or fire, this hillside has not seen humans in a long time. Eventually it will burst into the 2018 Ute Park Fire burn scar which provides dramatic views of Tooth Ridge and the plains. Full of elk and deer, this trail provides critical access to new camping areas and replacing old and unusable trails in the bottom of Sawmill Canyon. Eventually, this project will eventually tie into the Order of the Arrow Trail Crew project to the summit. Crews should be prepared to walk up to a mile and a half at the end of the summer.

### Elkhorn – Trail Replacement

If you've ever hiked between Flume Canyon and Elkhorn, you know why we're building this trail. Forge a new path that replaces a steep, badly eroded route to the top of Dean Skyline. Climbing from the bottom through a ponderosa pine and Douglas fir forest before emerging into the 2002 Ponil Fire scar, this hike will eventually afford sweeping views of Mt. Baldy, Little Costilla, the Spanish Peaks, and Culebra. As work progresses, crews will also have the opportunity to help stabilize and restore the old path to a natural condition. Join us as we retire a dreaded slog and breathe new life into a landscape once consumed by a record wildfire. Be prepared to hike up to a mile and a half from the bottom, or a mile from the top.

### **Sioux Camp– New Trail Construction**

Build switchbacks and blaze a new trail in this next step of the long-term development of a hiking route over Wilson Mesa. Following the completion of the new trail to Sioux, this begins the process of opening the top of Wilson Mesa to hiking and camping in one of the last inaccessible areas of Philmont. This trail begins at Sioux and will ultimately break through andesite rimrock to gain the top of Wilson Mesa with panoramic views of Philmont’s north country and Colorado. Crews will begin work at the camp itself and will have to hike up to a mile as the summer progresses.

### **Bonito Meadow – Stream Restoration**

Bonito Meadow is one of Philmont’s most iconic landscapes located in the heart of the South Country and one of the best examples of a wet meadow – fen wetland system remaining in the southwest. The Philmont Conservation Department has received a grant and is currently engaged in a large-scale restoration effort meant to reverse erosion and channelization of the wetlands caused by historic land use practices. Crews who work on this unique project will build erosion control structures, plant willows, and build fencing to keep livestock and elk out of sensitive wetland areas.

### **North Fork Urraca – New Trail Construction**

Ascending out of the bottom of the North Fork Urraca Canyon, this new trail will eventually find its way to the Stockade Ridge Camp. This trail will provide unique views of the ridge and the Tooth of Time as hikers literally cross underneath it. It will also access new camping and a natural spring along the hillside, which will provide another option for crews hiking the Tooth. The bottom section of the trail is steep and thick with trees, before climbing up to meadowy benches and crossing rocky canyons. Crews should be prepared to hike up to a mile from the intersection at the bottom of the canyon to the new construction.

### **Ring Place/Valle Vidal – Project TBD**

This project will occur on the Valle Vidal Unit of the Carson National Forest, providing a unique opportunity to be a steward of Philmont’s relationship with our public lands. The project will be determined after priorities for the 2024 field season are provided by the Forest Service in January.

### **50 Miler Earning Treks**

There are two itineraries that complete the required 10 hours of Conservation program to earn the BSA 50-Miler Award. These treks are both classified as “Super-Strenuous” and will provide challenge, adventure, and a sense of accomplishment to any crew. The 10 hours are spread out over two or three project locations, and crews will get to experience a more in-depth look at all the different types of work needed to help manage the Ranch.

## **PHILMONT’S NEIGHBORS AND LAND USE AGREEMENTS**

Philmont is privileged to utilize over 100,000 acres of its neighbor’s property for hiking and camping purposes. To maintain and build upon these solid partnerships, it is imperative that each Philmont participant and staff member responsibly enjoys, respects, and adheres to the land use agreements that are in place at all times.

Leave No Trace and Low Impact camping/hiking methods are used in agreement with each of our neighboring landowners. These responsible camping/hiking methods have earned both Philmont and Scouting high praise. Crews trekking into our neighboring properties will be instructed in Leave No Trace and Low Impact methods.

### **VALLE VIDAL UNIT OF THE CARSON NATIONAL FOREST**

Since 1988, Philmont has trekked through pieces of the 100,000-acre Valle Vidal. Today, Philmont utilizes roughly 59,000 acres in the Colfax County portion of the property. The Valle Vidal borders Philmont near Dan Beard, Rich Cabins, and Philmont’s North Ponil country. It is home to New Mexico’s largest wild elk herd. As a part of Philmont’s special use agreement with the Forest Service, we agree to do meaningful conservation services and practice Leave No Trace Camping in the Valle Vidal.

Another great feature of the Valle Vidal is the ability for a crew to “bushwhack” from location to location using only map and compass or GPS. There are few established trails but navigating through large ponderosa pine stands is a beautiful and rewarding challenge. There are also Low Impact Camps located in the Valle Vidal where your crew has a high likelihood of experiencing a night under the stars by themselves.

Philmont crews that trek into the Valle Vidal are shining examples of Scouting's commitment to being good stewards of the National Forests. As our public lands become less wild, it behooves us all to take advantage of this rare opportunity to experience the grandeur of the amazing Valle Vidal. Philmont has redesigned the Valle Vidal itineraries to offer even more exciting programs, including climbing Little Costilla Peak and Ash Mountain South. Each crew that successfully chooses a Valle Vidal itinerary will need a North Country Sectional map, which can be purchased at [www.ToothofTimeTraders.com](http://www.ToothofTimeTraders.com). **Crews hiking in the Valle Vidal must have good map and compass skills.**

#### COLIN NEBLETT WILDLIFE AREA

This 33,116-acre property is also operated by the New Mexico Department of Game and Fish. As of 2018, a new land use agreement has been made that allows for crews on certain itineraries to hike out of Philmont property via the Tolby Trail and to be picked up at the Trailhead for the bus ride back to base camp. Overnight camping is not permitted.

#### BARKER WILDLIFE AREA

Philmont has been hiking across the Barker Wildlife Area since 1964. The 5,600-acre property is owned and operated by the New Mexico Department of Game and Fish. Philmont's land use agreement with the Barker is for Leave No Trace hiking only. Overnight camping is not permitted.

North Country. It also serves as home to Rich Cabins Camp. Leave No Trace Hiking and overnight camping are permitted on the Greenwood Tract at established camps and areas only.

#### CHASE RANCH

In 2013 Philmont entered into a long-term land use agreement with the Chase Ranch Foundation. The agreement says that Philmont will assume full responsibility for the operation and management of the 11,000-acre Chase Ranch, protection and preservation of its historic structures, and development of educational programs for both Philmont participants and the general public. Founded in 1867 by Manly and Teresa Chase, the ranch remained continuously owned by their descendants until the passing of their great-granddaughter Gretchen Sammis, in August 2012. Subsequent to Gretchen's death, ownership of the ranch transferred to the Chase Ranch Foundation, which she had created for the purpose of preserving the property and her family's heritage in perpetuity. Multiple trail camps are located on the property, as well as Chase Cow Camp, which replaced Dean Cow as Philmont's North Country climbing camp.

#### ON THE TRAIL

Whether hiking on Philmont, the Valle Vidal, or our neighbor's land by permission, crews are expected to travel responsibly — stay together, practice Scouting values, and use proper wilderness ethics. As the adult Crew Advisor, you are the chief morale officer. **Due to potential emergencies, such as catastrophic fires, Crews must not deviate from their assigned itinerary.** Changes are only permitted for bona fide medical emergencies and must be approved in advance by the Logistics Department.

#### THE PHILMONT EXPERIENCE

Each of these pre-planned itineraries provide numerous exciting programs offered at backcountry program camps. The itineraries are specifically designed to provide crews with the programs that they have selected on their trek. Crews that stay in staffed camps normally have their first choice of the programs offered. Crews passing through these camps are not scheduled for program. If time and space allow, some crews **may** be able to participate in some of the programs while passing through. Trail camps offer crews a time to relax, bond as a team, and build lifelong memories. Philmont is a total experience! Plan for a balanced trek and enjoy the serenity of the mountains.

*This traverse of the North Country historical timeline starts off by exploring the site of the first confirmed T-Rex track in the world! Move on to Indian Writings the next day to learn about some of the oldest historical sites on the ranch, the many petroglyphs found in the canyon, as well as the pit house excavation site. Continue up the North Ponil Canyon to the site of Metcalf Station and try your hands as a railroader for the day before settling in to Horse Canyon trail camp. Hike down beautiful Horse Canyon to the original base camp and headquarters of Philmont at Ponil. Ride horses, enjoy a nice cold root beer at the Cantina and spend the rest of the day enjoying the western lore programs, a delicious chuckwagon dinner, and an exciting Cantina Show to top off the day. Pick up your burros then head over to Pueblano to spend time with the loggers of the Continental Tie & Lumber Co. to experience the thrill of spar pole climbing and enjoy a great campfire program. Get ready, as the next morning you will be heading up into the mountains and cooler nights at higher elevations. First, drop off your burros at Miranda and get a glimpse of what a Fur Trapper Rendezvous might have looked like and enjoy a friendly tomahawk throwing competition. Your next two nights are at a Black Horse Creek Camp, in the shadow of Baldy Mountain. You will have a layover day where you can summit Baldy Mountain, and then, if you are up for the challenge, hike down through Copper Park and French Henry to visit Lucien Maxwell's Aztec Mine. Get some rest after a long day and make your way via Baldy Skyline, then down the trail to Head of Dean to test your crew's teamwork skills. You'll stop at New Dean for the night before making your way to your last night on the trail at Cimarroncita. Here you will learn marksmanship with a bow and arrow on their 3-D archery range, and try out the new Laser Shooting Range, too! You'll make the short hike the next morning to the Ute Park Trailhead to load up on the bus for the journey back to Base Camp.*

*Hop off the bus with your Ranger at the Zastrow Trailhead and hike to Rimrock Park where you will learn backcountry camping skills from your Ranger. Spend some time with the Abreu family and learn about New Mexico homesteading. From there you will hike to Craggs through massive geologic strata representing ancient landscapes from oceans to volcanoes. Craggs Camp is a unique spot off the beaten path, and the hike to Agua Fria follows the path of a river that has spent countless eons cutting the entire valley you see before you today. Pull over at Fish Camp to visit Waite Phillips' historic Rayado Lodge. From Agua Fria to Apache Springs, you will be traversing Philmont's southern boundary. Enjoy 3D Archery, and the history and lore of the Jicarilla Apache before you leave Apache and make your way to Crooked Creek, where you will learn how early homesteaders lived off of land and cared for their animals. The next day's climb of Mt. Phillips is steep and an early start is needed to avoid afternoon weather. After summiting Philmont's second highest peak, you will get a break as you bed down at Red Hills for the night. Next, make a side trip to Big Red, and head to Phillips Junction and Beaubien and take a load off when you get there - you earned it! Sit in a saddle for a horse ride, pass the time with western lore, enjoy a chuckwagon dinner as big as the West, and get ready for wild evening performances. As you leave Beaubien, take advantage of the rare opportunity to see the wreckage of the WWII B24 Liberator that crashed on Trail Peak. Stop by Crater Lake to work with the loggers, then it's off to Miners Park and try your hand at rock climbing. Finally, hike from Miners Park to your final camp at Stockade Ridge. Get up early and maximize your opportunity for your hike up to the iconic Tooth of Time summit. Enjoy the views and reflect on your amazing experience before heading to Base Camp; either hiking in on the Tooth Ridge Trail or heading to the Lovers Leap Trailhead for your bus ride.*

## 2024 PHILMONT ADVENTURE ITINERARY

### Itinerary 12-14

### Rugged (good mix of program and hiking) - 63 miles

*From the ancient waters of the Rayado River to the prehistoric Tooth of Time, this itinerary has it all! After training the crew, your Ranger will escort you from the musical waters of the Rayado River at Abreu and their New Mexican homestead to Crater Lake. You'll be drawn into the mystique of the Continental Tie & Lumber Co., especially during the evening campfire. Next, make your way over Trail Peak to pay respects to the bomber crew that crashed in a B-24 Liberator on this site in 1942. Then, head up the gorgeous meadows to Beaubien, one of Philmont's Western Lore camps. Here your crew will get to experience horseback rides and a hearty chuckwagon dinner. Plus, both of their campfire shows are not to be missed! The next two days will go deeper into Philmont's wilderness where you will enjoy the beauty of Apache Springs and learn about the Jicarilla Apache, then be the guests of the homesteading family at Crooked Creek. Your next day can be a big one, so be sure to get some rest! Pass through the Rocky Mountain Fur Co. at Clear Creek prior to your ascent of Mt. Phillips. Rest at Red Hills as you get ready to tackle Comanche Peak the next morning and then make your way down to Cyphers Mine for a chance to pan for gold or try your hand at the forge! Then head downhill to camp at Hunting Lodge and pick up some food and do some climbing at Cimarroncito the next morning. As you pass through the Demonstration Forest, stop for a visit with our visiting forester. Learn about the New Mexico landscape including fire, water, trees, rocks, and more! Cathedral Rock will especially move your soul! The night at Clarks Fork is the 'quiet before the storm' and an opportunity to prepare for the pinnacle of your journey. Tomorrow you will climb up Shaefers Pass, and then traverse along Tooth Ridge. Upon reaching Tooth Ridge Camp, rest easy and take it all in as this is the perfect staging point for a dramatic finish atop the legendary Tooth of Time. Your next step is the descent back to Philmont Base Camp, and a victory ice cream at Base Camp!*

Tend to the chickens and goats and reward yourselves with a cold root beer at the cantina before heading to Bear Caves trail camp the next morning. Visit with the loggers of the Continental Tie & Lumber Co. and try out their crosscut saws and broad-axes and enjoy their Company Meeting Campfire if you get the chance. Look for the Tooth of Time as you make your way to Miners Park, where you can check out their amazing climbing programs, under the guidance of Philmont's trained staff. Tooth Ridge is your next destination for the breathtaking view from atop the Tooth of Time. Take a few minutes to look back over how far your crew has come in the past 10 days before heading down the ridgeline to Base Camp on your last day to end this amazing adventure.*

## 2024 PHILMONT ADVENTURE ITINERARY

### Itinerary 12-27

### Strenuous (hiking with some program time) - 76 miles

*This strenuous north country itinerary will take your crew through some of the most challenging terrain on Philmont while getting great program opportunities along the way. You will start off your trek at the Chase Trailhead where you can see what living on a ranch in the 1800's was like at the Chase Ranch House. After your first night at Hells Fire Canyon, you will rock climb and try some bouldering on some unique rock formations at Chase Cow. Enjoy the scenic hike across the rim of the North Ponil Canyon and stay at Coyote Howl. Drop into the canyon the next morning to learn about the Ancestral Puebloans that lived in the area, and see the petroglyphs scattered through the camp. You'll then make your way up the canyon to visit the Railroaders of the Cimarron & Northwestern Railway at Metcalf Station. Give them a hand with some rail construction before getting to Rabbit Ear for the night. The next morning you can try your hand at challenge course events at Dan Beard before crossing over into the Valle! Be ready to be engulfed by the scenic meadows of the Valle as you make your way to Ring Place. Ride some mountain bikes and enjoy the wide-open sky and starry night during the Astronomy Program. You'll continue the next night in practicing your low impact camping skills at Greenwood Canyon. Get your rest, as your crew will make the ascent towards the historic Baldy Mining District the following morning. Hang your bear bags and side hike to the summit of Philmont's highest peak, Baldy Mountain before you head down to Azurite to set up camp for the night. After a night of rest, hike through Baldy Town and soak in the mining history of this former gold mining town, pick up food and head to the Rendezvous at Miranda and throw some tomahawks and shoot muzzle loading rifles while you are there! Your burro pick up is the next morning before you make your way to see the loggers at Pueblano. The Continental Tie and Lumber Company will teach you spar pole climbing, tie making, and invites you to the company meeting campfire. The next day you will hike to Ponil and drop off your burro and grab an ice-cold root beer at the Cantina. Enjoy a night of a hearty chuckwagon dinner and the always exciting Cantina Show. Your last morning on the trail offers you the chance to ride horses before you hike to Ponil Trailhead to be picked up by the bus. Next stop... Base Camp!*

### Itinerary 12-29

### Super Strenuous (minimum program time) - 83 miles

*If you like bagging peaks, this itinerary is definitely for you and your crew! A motivated crew could potentially scale EIGHT (8) of Philmont's most iconic peaks! Start with a bus ride to Ponil Trailhead and hike to Bluestem for Ranger training and your first starry night in the backcountry. Your next night on the trail is at Pueblano Ruins but don't miss the nearby logging operations at Pueblano's Continental Tie & Lumber Company. Similarly, the next destination of Baldy Town has the nearby gold panning and mining operations at French Henry. Check out the mining history and ruins at Baldy Town, but go to bed early, because the next day highlights Philmont's tallest peak, (1) Baldy Mountain. Then, enjoy the long steady descent to Mistletoe camp with a pitstop at Head of Dean for challenge events. A hop, skip, and jump over the Cimarron River is all it will take the next day to reach Cimarroncita, which premieres 3-D archery and a laser shooting range. Get an early start and observe fire ecology through Ute Park Pass and the 2018 wildfire impact zone. Reaching Whistle Punk, you'll be close to an opportunity to side hike the new trail to reach the top of (2) Cito Peak. Head over to Divide via (3) Comanche Peak and, if you're in for an extra challenge, side-hike (4) Mt. Phillips. (5) Big Red will start your next day but feel free to tackle (6) Bonito Peak as a side hike (adds 2.5 miles) as you aim towards Porcupine then Phillips Junction for resupply. Your night at Beaubien gives you dinner and a show: the chuckwagon dinner and boot stomping cowboy campfire. Finally, follow the flow of the North Fork after visiting Black Mountain Camp and then climb to Shaefers Pass for one more chance to reflect on endless stars and countless memories. You'll wake up the next morning to begin your long and triumphant march into Base Camp via (7) Shaefers Peak and (8) the Tooth of Time!*

*This exciting trek offers a variety of great program elements, as well as a chance to summit Philmont's highest peak. Your adventure begins at Six Mile Gate Trailhead with a short hike to McBride Canyon camp, setting you up for easy access to Hart Peak the next morning. The North Ponil is a timeline in history as you make your way to see the petroglyphs and archeological sites at Indian Writings. Head up the canyon to work on the railroad and in the forge at Metcalf Station and their evening campfire show! Head up and over the ridge to the Middle Ponil Canyon and a night at Sioux. Visit the Cantina at Ponil for an ice-cold root beer and their evening program before picking up burros the next morning. Return burros at Miranda and throw tomahawks before camping at Maxwell for the night. A two-day stay there will enable your crew to climb Baldy Mountain and visit historic Baldy Town. Enjoy passing by the site of an old sawmill at New Dean, camp at Black Jacks, and explore outlaw Black Jack Ketchum's hideout on the following day! Next, head over to Cimarroncito and test your skills on several rock-climbing routes. Be sure to try out the climbing gym and see if you can make it around the wall. Camp near Mr. Phillips' Hunting Lodge, then ride horses and eat a chuckwagon dinner at Clarks Fork before camping at Ponderosa Park for the night. After additional training from your Ranger, you'll make your way to Harlan along the Vaca Trail - the very first Order of the Arrow Trail Crew project. Take in the Palisades Rock formation that evening as the sun lights it up. From there head to Elkhorn where you will work on a new trail to compete your Conservation Project. Head over to Ponil the next day for a mountain horseback ride, Western lore, and branding. After your Chuckwagon dinner, enjoy a root beer in the cantina with your crew and take in the Cantina Show. Get a good night's sleep for an early start the next morning as you conquer Hart Peak, the highest point on Philmont back in 1939 when Ponil was original base camp and headquarters, and then head to Indian Writings. Check out the Atlatl darts and then head back in time for the Petroglyph Tour. ### Itinerary 9-2

### Challenging (maximum program time) - 39 miles

Take a trip back in time with this itinerary that is chock full of unique programs and relics from the past! Start your journey through this timeline after getting off the bus at the Six Mile Gate Trailhead for a visit to the first confirmed T-Rex track in the world. Look for other fossils and footprints as you head upstream to Indian Writings where you will tour the fascinating petroglyphs left by the Ancestral Puebloan people prior to 1300 CE and work on an archaeological dig to discover more clues of their activities on Philmont property. Continue up the North Ponil Canyon to link up with the Cimarron & Northwestern Railroad at Metcalf Station. Work on the railroad, do some blacksmithing, then enjoy their nightly campfire program. As you make your way to Bluestem the next day, you'll pass through Ponil where you will be taken back to the old west! Try your hand at branding and roping, then reward yourself with a cold root beer in the Cantina before heading to camp for the night. The next morning you will head to Pueblano, taking you back to the early 1900s, where the loggers of the Continental Tie & Lumber Co. will teach you how to use crosscut saws or a broad axe. Pass through Baldy Town and setup camp to stage your Baldy Summit from Black Horse Mine Camp. After summiting Baldy Mountain and taking in the views, stop at Miranda where you will be transported to 1838 and the fur trapper rendezvous. Shoot muzzle loading rifles, throw tomahawks, and be regaled with the many tall tales the trappers will share with you before your final destination at Maxwell Trailhead on your final morning so you can meet your bus for your trip back to Base Camp.

## 2024 PHILMONT ADVENTURE ITINERARY

### Itinerary 9-5

### Rugged (good mix of program and hiking) - 46 miles

*This vista-rich itinerary has a great elevation profile with a supportive buildup, pinnacle 'mountain-top' experience, and a reflective to relaxing end. While the Baldy Mountain area will bring you to new heights on day's 5-6; it's flanked by design to make your trek successful and memorable. The first couple days will include initial skills taught by your Ranger while building excitement with fantastic views of Baldy Mountain. The views on the Dean Skyline are breathtaking as you settle down for the night and prepare for your journey to Upper Dean Cow the next morning. After truly immersing yourself over the first 3 days at Philmont, now is the perfect time to begin turning individuals into teammates at Head of Dean. Approach this camp with the willingness to break down barriers, the humility to accept imperfection, and the courage to help others. The pinnacle of your experience will likely be found in Baldy Country: touring the Aztec Mine at French Henry, hiking Baldy Mountain and two days at Copper Park. As you explore this area, you can see, feel, and imagine the history here. Its impact is pervasive, and you'll feel enchanted here. Absorb the mining history and allow yourself to be transported back in time – it's not hard to do! While there's still vast quantities of gold in Baldy Mountain's interior, it's unlikely you'll find more than a flake or two. However, the real gold is the memories you take home – a treasure that grows bigger and bigger through the rest of your life. As you hike down from the clouds, through French Henry and over Wilson Mesa, Rich Cabins and Ponil are perfect camps for reflecting on your experience as well as the experiences of historic peoples at Philmont Scout Ranch. At Rich Cabins, you'll be able to compare your outdoor recreation pursuits to the homesteading endeavors of the Rich Family. Further down at Ponil, you'll understand the ranching efforts of cowboys in the West and do some horseback riding of your own. And finally, as your bus returns to the 'real world', your memories will be filled with an incredible outdoor experience and the knowledge that you and your crew accepted and conquered the Philmont Challenge.*

*From the ancient waters of the Rayado River to the prehistoric Tooth of Time, this itinerary has it all! Your bus will travel along the old Santa Fe Trail and drop you off at the Zastrow Trailhead where you will hit the trail into Philmont's beautiful South country. After training the crew, your Ranger will escort you from the musical waters of the Rayado River at Abreu to Crater Lake. There, you'll be drawn into the mystique of the Continental Tie & Lumber Co., especially during the evening campfire. Next, make your way over Trail Peak to pay respects to the bomber crew that crashed in a B-24 Liberator on this site in 1942. Then, head up the gorgeous meadows to Beaubien, one of Philmont's Western Lore camps. Here your crew will get to experience horseback rides, a hearty chuckwagon dinner, and a campfire show that is not to be missed! The next two days will go deeper into Philmont's wilderness where you will enjoy the beauty of Crooked Creek during your visit to the homesteading family there. Your next day can be a big one, so be sure to get some rest at Comanche Creek! Make your way to the Rocky Mountain Fur Co. at Clear Creek and learn about the fur trapping industry, then get ready to tackle Mt. Phillips! (And if you are up to it, side hike Comanche Peak.) Take a load off and camp at Red Hills before making your way down to the Post Civil War Encampment at Black Mountain Camp. Here you will learn how to blacksmith, shoot muzzle loading rifles, and enjoy the serenity of camping along the North Fork Urraca Creek. Continue to be inspired by the beauty of this canyon and make your way down the North Fork Urraca Creek. Be sure to fill up your water before your ascent to Shaefers Pass camp. Your last day climb Shaefers Peak, traverse along Tooth Ridge, and make a dramatic summit atop the legendary Tooth of Time. Finish the descent back to Philmont Base Camp, and a victory ice cream at Base Camp!*

2024 PHILMONT ADVENTURE ITINERARY

Itinerary 7-1

Challenging (maximum program time) - 29 miles

Take a trip back in time with this itinerary that is chock full of unique programs and relics from the past! Start your journey through this timeline after getting off the bus at the Six-Mile Gate Trailhead for a visit to the first confirmed T-Rex track in the world. Look for other fossils and footprints as you head upstream to Indian Writings where you will tour the fascinating petroglyphs left by the Ancestral Puebloan people prior to 1300 CE and work on an archaeological dig to discover more clues of their activities on Philmont property. Your climb over Hart Peak will be rewarded with fantastic views of the Ponil Complex! Make your way down to Ponil where you will be taken back to the old west! Try your hand at branding and roping, then reward yourself with a cold root beer in the Cantina. The next step of your journey in time takes you to Elkhorn, via the Dean Skyline trail. Drop down into the Middle Ponil and pass through Pueblano and into the early 1900s, where the loggers of the Continental Tie & Lumber Co. will teach you how to use a crosscut saw and a broad axe. Make your way through Pueblano Ruins and up to French Henry and into the historical Baldy Mining district. Tour the Aztec Ponil mine, do some blacksmithing, and try your luck at panning for gold. Your final destination is Touch-Me-Not Creek, but not before you stop at Miranda, where you will be transported to 1838 and a fur trapper rendezvous. Shoot muzzle loading rifles, throw tomahawks and be regaled with the many tall tales the trappers will share with you. Your journey through time is almost over as you hike down to the Maxwell Trailhead to meet your bus for your trip back to Base Camp.

### Itinerary 7-13

### Strenuous (hiking with some program time) - 39 miles

*This Central Country route brings you deep into the Philmont backcountry, and even into the Ute Park Fire burn scar. Begin your trek by hiking through part of that burn scar on your way to Hunting Lodge Camp. On the way, see how the regrowth and natural recovery of the land is moving forward. At Hunting Lodge, you can visit the Demonstration Forest and continue to learn more skills and important guidance from your Ranger. On the following day you'll camp at Lamberts Mine, but make sure to visit Cyphers Mine and enjoy the immersion in history and the hands-on opportunities to pan for gold, blacksmith, and tour an actual gold mine. All of these build up the anticipation for The Stomp evening campfire program. Head up to Sawmill the next day and see right where part of the Ute Park fire stopped! Here you will learn how to reload .30-06 cartridges and then fire them at Sawmill's steel silhouette range. Moving deeper into the backcountry brings you up and over two of Philmont's South Country peaks. First you will climb Comanche Peak, then make your way to Mount Phillips camp for the night. The next morning will bring your crew over Mount Phillips, which is Philmont's second highest peak. Make your way to Clear Creek from there, where you will work with the trappers of the Rocky Mountain Fur Co. for a tomahawk throwing competition. Camp that night on the CS Ranch's Tolby Headwaters Camp before making your way down the Tolby Road Trail the next morning. Though long, this trail brings to you some of the most glorious views of Wheeler Peak and Eagle Nest Lake, so have your cameras ready as you make your way to the trailhead and back to base.*

### Itinerary 7-15

### Super Strenuous (minimum program time) - 41 miles

*This itinerary offers a good mix of program and hiking with the added bonus of being among the first to camp in the Ute Park Fire burn scar. After a short bus ride to the Turkey Creek trailhead you'll make your way to Vaca via the Vaca Trail which was the very first Order of the Arrow Trail Crew project ever completed. Pay close attention during your Ranger training and marvel at Mother Nature's recovery efforts in the burn scar. On your way to Deer Lake camp the next morning be sure to stop in at Harlan for 12 gauge shotgun shooting and reloading. After that you're off to Sawmill for .30.06 reloading and shooting. You're back on the trail the next morning after completing your trail building conservation project. Try your hand at panning for gold at Cyphers Mine before heading to Cimarroncito. Enjoy the climbing wall that evening and then head up to the top of the ridge for an early morning rock climbing session. Stop at the Demonstration Forest to talk with a visiting Forester as you make your way to Clarks Fork for Western Lore, branding, and a delicious Chuckwagon dinner. Hit the sack right after the campfire in preparation for your hike back to Base Camp the next morning. Celebrate your accomplishments with your crew and enjoy the incredible views from the top of the Tooth of Time and complete your trek by passing through the "We All Made It" gate!*

## 2024 PHILMONT ADVENTURE ITINERARY

### Itinerary 7-16

### Super Strenuous (minimum program time) - 42 miles

*This program intensive trek follows mountain streams, discovers mountain meadows, and traverses peaks and mesas across Philmont's South Country. Begin your trek and work through some COPE elements at the course located at Rocky Mountain Scout Camp. Continue by hiking over the Lovers Leap formation before settling into a campsite at Herradura for continued Ranger training. Your next day will have you visiting the Continental Tie & Lumber Co. at Crater Lake. After your time there, you'll head up and over Fowler Mesa to Lookout Meadow. Keep your voices low as you hike into Lookout Meadow, and you might see the small elk herd that frequents the area. Wake up early to watch the sunrise from the top of the meadow and see why it is called Lookout! From there, scale rugged Lookout Peak and view the twists and turns of Rayado Canyon below. Your next destination is where the canyon divides at Fish Camp. Learn the history of Waite Phillips' Rayado lodge enroute to Beaubien where you will rope, brand, eat a Chuckwagon dinner, and be entertained at a cowboy campfire. The next morning, you'll have the opportunity to shoot muzzle loading rifles at Black Mountain on your way down the North Fork Urraca Creek. Do some rock climbing and rappelling at Miners Park, then rest well and be sure to fill all of your water bottles because the final challenge awaits...The Tooth of Time! Climb Shaefers Peak first, and then on to the Tooth of Time, all the while reflecting on this amazing journey as you make your way back to Base Camp by traversing Tooth Ridge.*

2024 PHILMONT ADVENTURE ITINERARY

Itinerary 3A-S

Challenging (maximum program time) - 32 miles

*This itinerary has shorter mileage for the south country. It offers a little less time in the saddle and a little more time for programming or slightly later mornings on most days. The morning of day 3, your crew will pack up your horses and ride to Crater Lake. At Crater Lake you can enjoy interpretive programming with the Continental Tie and Lumber Company. These programs include spar pole climbing, lumberjacking, and a legendary evening campfire. The next morning, you will have your longest day up over Fowler Pass, down to Bonita canyon, and up again over Webster Pass to Fish Camp. At Fish Camp, the program offered includes historical interpretation of one of Waite Phillip’s favorite places on Philmont, fly tying, and fly fishing instruction on the Rayado Creek. This itinerary lays over at Fish Camp, and during this time you can take full advantage of programming there as weather allows, or side hike. This is also the time to pick up crew food from nearby Phillip’s Junction for the remainder of the trek. Day 6 is a short ride up to Beaubien where the crew can complete their conservation project, and enjoy western lore programming, chuckwagon dinner, and a great western campfire in the evening. Day 7, the crew will ride from Beaubien back down over Fowler Pass to Miner’s Park where the program is rock climbing. Then day 8 is a ride back down to Cattle HQ in time for the afternoon gymkhana competition.*

2024 PHILMONT ADVENTURE ITINERARY

Itinerary 3B-S

Challenging (maximum program time) - 36 miles

*This itinerary has shorter mileage for the south country. It offers a little less time in the saddle and a little more time for programming or slightly later mornings on most days. The morning of day 3, the crew will ride west into the mountains, passing under Lover's Leap to Miner's Park where the program is rock climbing. Day 4 is a ride up Fowler Pass and Bonita Meadow to Beaubien camp. At Beaubien the crew can complete their conservation project and enjoy western lore programming, chuckwagon dinner, and a great western campfire in the evening. The morning of day 5 brings a short ride down through Phillip's Junction to Fish Camp. At Fish Camp, the program offered includes historical interpretation of one of Waite Phillip's favorite places on Philmont, fly tying, and fly-fishing instruction on the Rayado Creek. This itinerary lays over at Fish Camp, and during this time you can take full advantage of programming there as weather allows, or side hike. This is also the time to pick up crew food from nearby Phillip's Junction for the remainder of the trek. Day 7 will be the longest riding day of this trek, riding up over Webster Pass, through Bonita Canyon, and back over Fowler Pass down to Crater Lake where the crew can enjoy interpretive programming with the Continental Tie and Lumber Company. These programs include spar pole climbing, lumberjacking, and a legendary evening campfire. The final morning, the crew will mount up early to make the ride to Cattle HQ in time for the afternoon Gymkhana competition.*

## CAVALCADE ITINERARIES

Cavalcade itineraries have been developed to provide the most varied and popular programs for your crew. Each itinerary includes a layover day to rest your horses and to provide your crew the opportunity to hike to a camp or landmark which may not be possible while you are on horseback.

The itineraries which have been developed for the Cavalcades have been designed to include a wide variety of staffed camp programs. However, bear in mind that a large part of the program for Cavalcades is the opportunity to spend hours on horseback while seeing the beauties and wonders of Philmont's backcountry. It will allow your crew to gain confidence and experience while riding and working with man's finest domestic animal—the horse. Because of the length of some rides or due to unexpected events on the trail, some program opportunities at staffed camps may be unavailable by the time you arrive.

In order to beat afternoon thunderstorms or experience program opportunities, some days may require early wake up and saddling. Your crew will have to work smoothly as a team because some days can be very strenuous as well as exciting.

There are 10 itineraries available for Cavalcades in the Southern country and 10 itineraries for the Northern country. Please note that itinerary numbers that begin with the same digit (for example, 2A-S and 2B-S) are simply reversals of one route. The S or N denotes Southern or Northern itineraries.

A summary of the Southern and Northern Itineraries follow. After reading the itineraries and reviewing the programs offered at staff camps, choose the **top 5** itinerary choices (either Southern or Northern depending on how you are assigned by Registrar). As a reminder, Cavalcade numbers that end in CV and CW are Southern groups and those ending in CX and CY are Northern groups.

### Horsemanship

We recommend that you and your crew practice horsemanship before your arrival. The Horsemanship merit badge is preferred. Be aware that there is a great difference between 8 hours in the saddle at Philmont and 1 or 2 hours of practice at your local stable. While on the trail, your Horseman and Wrangler will coach your crew on sitting up straight and balanced in the saddle. However, if a horse is sore while on the trail due to sloppy horsemanship, the rider may have to walk or even be removed from the trail. We strive to keep our horses sound and usable for seven Cavalcades throughout the summer, and it is not fair to those who follow if horses are brought in with saddle and cinch sores.

After instruction by your Philmont Horseman, each crew member will be responsible for saddling and unsaddling their personal horse. You will also receive instruction on packing a horse and tying a diamond hitch.

Be aware that horses are large and powerful animals and that sudden accidents can happen. Be prepared to listen to the instructions given by your Horseman and Wrangler for your safety. Your crew should come with a positive attitude, a willingness to learn, and a respect for horses.

**If your crew desires to practice horsemanship at a local stable, it is your responsibility as a Lead Advisor to research the safety record of the particular stable and to be sure the horses are appropriate for your level of experience.** You must assume that horses and horseback riding may have the potential for injury. You should do as much as possible to manage the risks associated with horsemanship as you and your crew prepare for Philmont.

## CAVALCADE EQUIPMENT

Each Cavalcade will have two or three pack horses. The packhorses plus your personal horse will carry all of your personal crew gear.

Philmont will also provide all necessary horse gear including saddles, bridles, halters, saddle bags, stuff sacks, slickers, and helmets. Crew camping gear such as tents, stoves\*, pots, large spoon, pliers, camp suds, scrubby, matches, toilet paper, sump material, dining fly, bear bags, and bear rope will also be provided. Each participant must have a raincoat with a hood and rain pants which need to be one size larger. ¾ length slickers are optional.

\*Crews may bring their own cooking stoves, however, keep in mind that replacement parts may be impossible to find in the backcountry.

While on horseback, each rider is required to wear western boots and long pants which you should bring with you. Riding boots should be smooth soled with a heel such as a roper or cowboy boot and should be a pull-on type boot. Also required while on horseback are riding helmets which are furnished by Philmont.

All personal gear (including sleeping bags) should fit in the stuff sack or saddle bags provided by Philmont. The saddle bags are approximately 3"x12"x12" per side. All crew camping gear and tack for horses is furnished. While horseback, you will be required to wear a riding safety helmet provided by Philmont.

See the Cavalcade Guidebook to Adventure for a specific equipment list and more information on Cavalcades.
